 vishalgouda486

PROFILE

Computer Science Engineering undergraduate seeking an entry-level opportunity to learn and apply technical skills. Interested in building AI-based applications and applying programming and problem-solving skills in a professional environment.

EDUCATION

B.Tech. Computer Science & Engineering, 07/2027
KLS Gogte Institute of Technology, Karnataka

PUC 04/2020 – 05/2022
Bangur Nagar Junior College, Karnataka

SSLC 06/2020
St. Michaels's Convent High School, Karnataka

SKILLS

- | | |
|----------------------------|-------------------------------|
| • Python | • HTML |
| • MySQL | • JavaScript |
| • C++ | • Git |
| • CSS | • Prompt Engineering |
| • Basic AI API Integration | • Web Application Development |

RELEVANT COURSES

Data Structures & Algorithm

Operating Systems

Object Oriented Programming

Computer Networking

Cyber Security

Software Engineering

ACHIEVEMENTS

- Successfully developed an AI-based Interview Assistant web application as a personal project.
- Gained hands-on experience in frontend web development using HTML, CSS, and JavaScript.
- Completed coursework in core Computer Science subjects including OOP, DBMS, Operating Systems, and Cyber Security.

PROJECTS

PREPAURA, *Smart AI Interview Preparation*

- Developed an AI-based web application to help users prepare for interviews through interactive practice and mock interview modes.
- Implemented a Practice Mode to generate interview questions and answers using prompt engineering techniques.
- Designed a Mock Interview Mode to simulate real interview scenarios with structured and timed AI-driven questioning.
- Integrated voice tone analysis to evaluate user confidence, clarity, and communication style during answers, helping users improve their speaking skills and overall presentation.
- Implemented facial expression analysis using webcam input to assess user attentiveness and emotional cues, providing feedback on body language and interview behavior.
- Added a Proctored Tab feature in Mock Interview Mode to monitor user activity and create a realistic interview environment similar to actual online interviews.
- Performed testing and debugging to improve application performance and reliability.
